

DAVID PHOENIX

southern california

Creating designs that incorporate and reflect the personality and passions of his clients is David Phoenix's stock-in-trade. Whether it is an individual room or an entire residence, this interior designer's main challenge is to draw from a multitude of styles, juxtaposing contemporary and classic, bold and subdued, to achieve a look that is inspired by the personality and chemistry of the client rather than by a particular design category or popular trend. The firm provides a range of services, from consulting and space planning to architecture, interior design, and art and antique acquisition. With more than fifteen years of design experience and ten years at the helm of his own business, Phoenix has earned a reputation as one of the country's most influential designers and was named one of America's Top Young Designers by *House Beautiful* magazine. Based in Los Angeles, he has worked his magic for a celebrity clientele that includes Maria Shriver and Arnold Schwarzenegger, and in cities such as Beverly Hills; Washington, D.C.; Chicago; San Francisco; Sun Valley; and New York. Among his many accomplishments is being chosen to design the official residence of the governor of California.
